Dear Ms. Hackman,

Thank you for the awesome performance at Metro Davidson County Detention Facility. The "Shining Light Ministries" was exceptionally organized and professional. Your tool control and heightened awareness towards security was above reproach. Even though the Ministry required much equipment, the entering and exiting process was well planned. The inventory sheets were extremely helpful and assisted in the tool accountability process.

The concert was enlightening and uplifting. Many of the inmates thanked the staff for the opportunity to be a part of an extraordinary concert. Additionally, several staff commented on the positive effect the concert had on the inmate population. Once again, thank you for allowing us to be part of such a wonderful experience. Please call or email if we can assist you with anything and we hope to have the pleasure of your inspiration in the future.
